EMPLOYMENT

University of Colorado Boulder, Leeds School of Business

Assistant Professor of Accounting

June 2022 – Present

Center for Ethics and Social Responsibility (CESR) Research Fellow

August 2023 – Present

EDUCATION

University of Iowa, Henry B. Tippie College of Business

Ph.D., Accounting (with a minor in Finance)

December 2022

B.B.A., Accounting & Finance (with honors and highest distinction)

May 2017

RESEARCH INTERESTS

I strive to use unique data and settings to study relevant, real-world financial market phenomena with an emphasis on the creation and use of financial information by everyday people.

"[E]conomic knowledge advances when striking real-world events and issues pose puzzles we have to try to understand and resolve. The most important decisions a scholar makes are what problems to work on. [...] The best economists have taken their subjects from the world around them." – James Tobin

RESEARCH

Publications:

1. "The Irrelevance of ESG Disclosure to Retail Investors." [\[PDF\]](#)
 - Coauthors: Jim Naughton and Clare Wang
 - Forthcoming at *Management Science*
 - Takeaway: Despite the anecdotal and experimental evidence that retail investors prefer firms that "do good", we find that ESG press releases are irrelevant to retail investors' portfolio reallocation decisions.

Working Papers:

2. "The Role of Accounting Information in an Era of Fake News." [\[SSRN\]](#)
 - Coauthor: Betty Liu
 - Under fourth-round review at the *Journal of Accounting & Economics*
 - Takeaway: A firm's accounting information plays an *ex ante* deterrence and *ex post* mitigation role in combating financial fake news.

3. "How Does Data Visualization Impact Retail Investor Trading?" [Draft Available Upon Request]
 - Takeaway: Data visualization enhances retail investor processing of earnings information, but enhanced information processing does not always translate to higher future returns since retail investors do not possess a preference function that strictly seeks to maximize risk-adjusted returns.
4. "Price as an Information Monitoring Signal." [Draft Available Upon Request]
 - Coauthor: Jesse Glaze
 - Takeaway: Retail investors learn about the existence of new public information by observing stock price changes and then trade using this new information.
5. "Perception Matters: Retail Investors, the SEC, and Earnings-Driven Trading." [Draft Available Upon Request]
 - Coauthor: Jackie Wegner
 - Takeaway: The Securities and Exchange Commission (SEC) publicly declares its dedication to retail investors and their protection. Broadly, we show that (1) retail investors' perception of the SEC varies considerably over time and (2) this perception affects their participation in financial markets.
6. "The Impact of Earnings Season on Election Day." [\[PDF\]](#)
 - Coauthor: Clare Wang
 - Takeaway: The third calendar quarter earnings season co-occurs with U.S. election season, leaving a role for corporate earnings to influence a voter's perception of the economy and, ultimately, their vote, particularly for those voters who are reasonably aware of corporate earnings.
7. "A Corrupt NBA Referee and the Sports Betting Market: Quasi-Random Tests of Informed Trading and the Price Formation Process." [Draft Available Upon Request]
 - Coauthor: Dennis Hamilton
 - Takeaway: Using the random assignment of an informed trader across NBA games, we find that informed trading increases long- and short-term price movements, decreases market liquidity, and has no meaningful impact on price informativeness. We also find evidence consistent with the informed trader engaging in strategic price bluffing.
8. "Bigger Fish to Fry: The Interdependence of Earnings and ESG News in Investor Screening." [\[SSRN\]](#)
 - Coauthors: Jim Naughton, Clare Wang, and Ira Yeung
 - Takeaway: Investors respond more strongly to ESG news released around earnings announcements than other periods and conduct negative screening based on ESG news. Further, investors do not screen on ESG news when earnings are negative, consistent with investors having bigger concerns to attend to than ESG news when a firm's financial performance is poor.

WORKSHOP PRESENTATIONS

University of Waterloo (2023)
University of Utah (2023)
Chinese University of Hong Kong, Shenzhen (2023)
University of Colorado Boulder (2022)
University of Minnesota (2022)
Texas A&M University (2022)
University of Chicago (2022)
Harvard University (2022)
University of Kentucky (2022)
University of Iowa (2021)

CONFERENCE PRESENTATIONS & DISCUSSIONS (*plenary presentation; ^discussion)

Northern Finance Association Conference (2023)^
Colorado Summer Accounting Research Conference (2023)^
Western Region AAA Doctoral Student Faculty Interchange (2023)^
Cambridge Disinformation Summit Webinar (2022)*
